Quality Assurance

All the products are manufactured under the most stringent quality norms. Some of the key highlights of our facility are :

100% in-house fumigation of wheat, irrespective of its origin (Mandi / Private Warehouse / FCI)

We use pharma-grade magnets which are periodically checked with in-house gauss meter

To avoid contamination, all manual packing is done with complete protection (gloves, masks, caps)

Quality Assurance

Goods stocked strictly only on pallets and that too within clearly marked gangways. No goods (finished / raw materials) come in contact with walls or floor

Third-party Pest Control Agency is deployed by us on permanent basis

Daily production batch samples are stacked carefully in humid/hot working environments to ensure they adhere to transit/market storage conditions

Sensory test on chapati is performed every 3 hours to check its colour, texture, taste, aroma and softness
